PROJECT EXPERIENCE

Static Personal Portfolio

Project Title: **Personal Portfolio Website (Capstone 1)**

Role: **Zuitt Student (Front-end Developer)**

<https://handaro.github.io/webportfolio/>

Description:

- Created a visually stunning personal portfolio website using HTML, CSS, and Bootstrap to showcase projects, skills, and professional achievements. The site is designed to be fully responsive, ensuring an optimal viewing experience across all devices.
- Developed portfolio with mobile-first design in mind. Interactive project.

E-Commerce Workflow Management System

Project Title: **Dynamic E-Commerce Workflow Management (Capstone 2)**

Role: **Zuitt Student (Back-end Developer)**

<https://ec2-3-16-152-230.us-east-2.compute.amazonaws.com/b6>

Description:

- Developed a full-featured e-commerce platform using the MERN stack (MongoDB, Express.js, React, Node.js). The platform includes essential functionalities to enhance user experience and streamline the management of online sales. Created and optimized multiple pages, ensuring seamless integration and high performance.
- The platform features dynamic product catalog with filtering and sorting, real-time search, seamless cart updates, secure checkout, and a comprehensive admin dashboard with real-time analytics and user management capabilities.

E-Commerce Platform Development

Project Title: **MERN E-Commerce Platform**

Role: **Zuitt Student (Full-Stack Developer)**

<https://zuitt-bootcamp-prod-481-7888-parpan.s3-website-us-east-1.amazonaws.com>

Description:

- Developed a full-featured e-commerce platform using the MERN stack (MongoDB, Express.js, React, Node.js). The platform includes essential functionalities to enhance user experience and streamline the management of online sales. Created and optimized multiple pages, ensuring seamless integration and high performance.
- The platform features dynamic product catalog with filtering and sorting, real-time search, seamless cart updates, secure checkout, and a comprehensive admin dashboard with real-time analytics and user management capabilities.

Wordpress Powered Blogs

Project Title: **Listicle Blogs**

Role: **College Student (First Project created in October 2018)**

<https://tplist.home.blog/>

Description:

- Developed a series of listicle blogs as my first web project, hosted on WordPress. The content ranged from "My Top 10 Battle Emcees" (4.2K views) to "6 Signs You Are Not Truly in Love," "My Top 10 Arduino Sensors," and "My Top 10 '90s Anime Opening Songs." Focused on delivering engaging, easy-to-read articles that appeal to niche audiences. Gained hands-on experience in content creation, SEO, and WordPress design while optimizing posts for better user engagement and visibility.
